

Building Authority Financing Activities

Initial Project Financing

Construction of the Environmental Protection Building, Mary Roebling Building, Community Affairs Building, Department of Transportation Annex, Pest Control Laboratory, and Bank Street Garage

To maximize investment earnings during the construction period, the Authority designed a two and one-half year temporary bond issue with interest capitalized for the life of the loan. On December 23, 1981, the Authority sold \$129 million of Revenue Bonds, secured by a lease agreement with the State and rated "Aa" by Moody's and "AA-" by Standard and Poor's, at a coupon rate of 10.5%. The bonds were due on August 1, 1984. The reinvestment of proceeds, according to a projected cash draw-down schedule, was made at a very favorable average return of approximately 14 percent.

Preparation for the long-term financing of the initial project began in September of 1982 but a planned November bond sale was postponed when interest rates moved upward. The sale was eventually consummated on January 13, 1983 when an issue of \$157.1 million refunding bonds was underwritten at a net interest cost of 9.83%. In December 1985, the Authority refinanced its outstanding debt at an interest cost of 9.39%. In May, 1987, the Authority refinanced a portion of the 1985 bonds to achieve debt service savings of \$13 million over the life of the bonds. In September, 1997, a portion of the 1987 bonds were refunded with the 1997 Bond Series.
